## **Declaration of Commitment of Agencia Andaluza del Conocimiento to the Principles “The European Charter for Researchers” and “The Code of Conduct for the Recruitment of Researchers”**

The Agencia Andaluza del Conocimiento (AAC) is a regional governmental agency under the authority of the Regional Ministry of Economy, Innovation, Science and Employment in charge of the evaluation and accreditation of the activities of the universities and also of the R&D&I activities of the different agents in the region, as well as of the promotion of technological innovation, knowledge and technology transfer and the participation in EU-funded R&D&I programmes.

The AAC welcomes and fully supports the initiative of the European Commission and the recommendations given in the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

By its commitment to the Charter and Code, AAC express its intention to engage in this transnational effort to improve the working conditions for researchers throughout Europe, promote elements that make research an attractive career, and work to enhance quality of research and innovation by facilitation of international collaboration and transnational, interdisciplinary mobility of researchers.

The AAC is the Andalusian Service Centre of the European strategy for mobility of researchers in the European Research Area (ERA) within the EURAXESS network and will subsequently promote the implementation of the Charter and the code as vital part of its commitment to excellence in Andalusia.
