Declaration of commitment of Politecnico di Milano to the Charter for the European Researchers and the Code of Conduct for the Recruitment of Researchers.

Politecnico di Milano, represented by its Rector, prof. Giovanni Azzone, has decided to adopt the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

Although several of the general principles of the Charter and Code have already been common practice at our institution, the adoption will provide additional guidelines of orientation for further improvement and will represent an added value for researchers recruitment. Therefore, Politecnico di Milano commits itself to the implementation of the principles of the Charters and Code within the organization and endorses the guidelines outlined in the Charter and Code.

Application is foreseen for the current year.
