Subject  
Declaration of Commitment to the European  
Charter for researchers and the Code of Conduct  
for the recruitment of researchers

Dear Mr. Clarke,

We are pleased to inform you that the University of Amsterdam endorses the European Charter of Researchers and Code of Conduct for the Recruitment of Researchers of the European Commission of 2005.

The University of Amsterdam believes that Human Resource strategies are essential for the quality and continuity of excellent research. The general principles of the Charter and Code closely resemble those of our University and will serve as a reinforcement for our HR Strategy.

Practising the Charter and Code will make the European Research Area more attractive to international scientists by providing clarity on European research careers, to which the University of Amsterdam gladly contributes.

Yours Sincerely,  
the Board,

dr. Louise J. Gunning-Schepers,  
President
